SUMMARY

B.Tech CSE student (graduating 2027) with hands-on experience building, configuring, and deploying full-stack web applications using Django and the MERN stack. Proficient in Python scripting, REST API integration, cloud platforms (AWS), and managing the complete application lifecycle. Strong problem-solver with a continuous improvement mindset and a CGPA of 8.4.

SKILLS

Languages: Python, Java, JavaScript, SQL
Web & Frameworks: Django, Flask, React.js, Node.js, Express.js, HTML, CSS
Cloud & Tools: AWS (EC2, S3, IAM), MongoDB, Git, VS Code
Concepts: REST API integration, application configuration, scripting & automation, OOP, AI/ML fundamentals
Soft Skills: Cross-functional collaboration, requirements gathering, troubleshooting, continuous improvement

INTERNSHIPS

AWS Cloud – Virtual Internship *Sep 2025 – Oct 2025*

- Built, configured, and deployed cloud infrastructure using AWS (EC2, S3, IAM); understood application lifecycle management and cloud security best practices.

Google AI/ML – Virtual Internship *Oct 2024 – Nov 2024*

- Applied supervised/unsupervised ML techniques across data preprocessing, model training, and evaluation; troubleshot pipeline configuration issues and documented findings.

Zscaler Zero Trust Cloud Security – Virtual Internship *Aug 2023 – Sep 2023*

- Studied Zero Trust architecture and identity-based security; assisted in documenting security configurations and scripting-based automation used in enterprise cloud environments.

PROJECTS

AI-Powered Resume Matcher *Python, Django, Claude API, scikit-learn*

- Designed, built, and configured a full-stack Django app integrating the Claude API (third-party) for AI resume summaries and TF-IDF cosine similarity for job match scoring.
- Managed the complete application lifecycle — requirements to deployment — with user auth, analytics dashboard, and Python scripting to automate resume parsing.

Book Stall – E-Commerce Platform *MongoDB, Express.js, React.js, Node.js (MERN)*

- Built and configured a full-stack e-commerce platform with user authentication, product search, shopping cart, checkout, and order management using the MERN stack.
- Developed an admin panel for inventory management with role-based access control, troubleshooting and resolving configuration issues across frontend and backend.

Dynamic Student CRUD Dashboard *Python, Django, HTML, CSS, JavaScript*

- Built a student management dashboard supporting full CRUD operations with role-based access control, gathering requirements and configuring a modular Django app structure.

Personal Portfolio Website *Python, Django, HTML, CSS, JavaScript*

- Designed and deployed a responsive single-page portfolio using Django with smooth scroll navigation and mobile-responsive layout — no external CSS framework.

EDUCATION

B.Tech – Computer Science Engineering *Graduation: 2027*
Mother Theresa Institute of Engineering and Technology, Melumoi CGPA: 8.4 / 10

Intermediate (12th) – Mother Theresa Junior College *2023 | 91%*

SSC (10th) – Ravindra Bharathi School *2021 | 99%*

ADDITIONAL INFORMATION

Competitive Programming: Active on LeetCode & CodeChef — consistent DSA practice to support problem-solving discussions.
Strengths: Ownership mindset — proactively identifies enhancements and delivers effective solutions.

I hereby declare that the above information is true and correct to the best of my knowledge.
